

## Third Party Collection Solutions

### Skip Tracing Services

Use this service only if you are requesting the location of your member. Please use our Unsecured Accounts Referral form for collection of your deficiency balances OR if you would like collateral repossessed after skip tracing, see Secured Accounts options, 2, 3 or 5.

CU Recovery will contract with a trusted vendor to obtain as much information as possible, including the member's current address, telephone number, and place of employment. Due to the sensitivity and proprietary nature of their work, not all information can be provided. The credit union agrees to make CU Recovery aware of any contact with the member after the account has been assigned.

#### **Skip Tracing Service Pricing:**

Locate Member / Address to be served \$250.00

The credit union must allow the skip tracer to work the file for 45 days. If the file is closed for any reason within 45 days and no information has been found, a \$25.00 closeout fee will apply. After 45 days, if there is no information provided, the credit union can choose to close the file at no fee, or keep it open and the skip tracer will continue to work the file to locate the member for the same fees as above.

For more information contact your Client Service Representative.
